

Škoda Auto in Mladá Boleslav protected by Sieza Peridect

ŠKODA AUTO is a Czech car manufacturer founded in 1895 and currently belongs to the Volkswagen Group. There are several production plants in the Czech Republic. The plant in Mladá Boleslav produces Fabia, Octavia, Rapid, Scala models. The requirement was to secure 8,4km of perimeter and to interconnect the fence detection system with the existing CCTV system.

Ticking the Boxes

- **Reliable detection**
- **Low false alarm rate**
- **Easy service and maintenance**
- **Integration with CCTV system**

Mr. Stfacek, Security Department Manager, says about the system: *"The Peridect+ system is working very well (high level of detection, low rate of false alarms, cooperation with cameras, central security panels and VMS, reliability, easy and economic service and maintenance) and therefore satisfies the highest security requirements of our company"*.

Spec list

• **17x PVJ**

• **3 060x PDS**

• **8,4km of perimeter**
